	TOTAL	15-17		TOTAL	15-17

Students must meet all University Requirements in order to graduate, for a complete list of the requirements see the General Catalog. Conflicts in class times may require the modification of this plan.

¹ A minimum of 24 credits are needed to meet University Studies. This includes ENGL 1010 and 2010, breadth classes in the BAI, BCA, BHU and BSS categories, and depth classes in the DHA, DSS and CI categories. See the *General Catalog* or the Major Requirement Sheet for more details.

² MATH 0900, 1010, 1050, and 1060 may be required for those not prepared to begin MATH 1210.

³ Students may choose between BIOL 3300 Microbiology (Fall or Spring) or BIOL 5210 Cell Biology (Fall).

⁴ Several options exist for completing the field course requirement in both Fall and Spring semesters.

⁵ Students must select an additional 10 credits of 4000-level and above BIOL or PUBH prefix courses as electives. A maximum of 4 credits from BIOL 4250 (1-2 credits), BIOL 4710 (1 credit), BIOL 5800 (1-3 credits), or seminar courses (1-2 credits) may be used.

⁶ Several options exist for completing the upper-division physiology requirement.
