

## 2017 Department of Biology Awards

JAMES MOHR SCHOLARSHIP

*Nya Harper, Biology*

I am a Biology major with an emphasis in Human Biology and a minor in Psychology. I hope to continue on to medical school after completing my degree here at USU. Academically, I have always worked to maintain a high standard. I have been on the Dean's List 2 out of the 3 semesters I have completed so far in my college career. I volunteer in the community helping to tutor elementary school students who are behind in reading and I have enjoyed it very much. I also volunteer to sing in the Logan LDS Institute Choir.

Besides my love and interest in biology, my favorite pastimes include singing, long boarding, and baseball (though I played softball throughout high school). My love of baseball, in part, came from my love of the Chicago Cubs, who my family and I have followed since I was very young. We look forward to hopefully seeing them in the World Series again this year.
